

Mathematics Work Sample Task

Name: _____

Date: _____

Teacher: _____

CU	PS	V	C	A

Directions:

Be sure to identify the answer.

Show the work you did to get the answer. Show how you know you are right.

David and Debbie's dad made some chocolate cookies for their family. The cookies were so huge, he decided to cut each one in half. David ate seven halves and Debbie ate five halves. How many whole cookies did they eat all together? Show your work and explain how you got your answer.
