

## Mathematics Work Sample Task

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Teacher: \_\_\_\_\_

<b>CU</b>	<b>PS</b>	<b>V</b>	<b>C</b>	<b>A</b>

### **Directions:**

Be sure to identify the answer.

Show the work you did to get the answer. Show how you know you are right.

Erin has two pieces of rope. When the two pieces of rope are placed end to end, they measure 40 meters in length. When the pieces are laid side by side, one is ten meters longer than the other. How long is each piece? Show your work and explain how you got your answer.
